December 5, 2018

Upon completion of the work performed this weekend at the Lindbergh Elementary School, *Detail Associates, Inc.* in collaboration with *EMSL Analytical Inc.* has assessed the remediation procedures and determined that the airborne spore levels are within acceptable criteria. The area is certified as clean and can be opened for normal activities.

Beginning this morning, the area will once again be open and can be utilized. Thank you once again for your patience and understanding throughout this process.

Respectfully,

Joseph Cirillo
